Safety class	EN ISO 20347:2012 OB A E FO SRC
Sole material	Single Density PU
Upper material	Microfiber

The upper material of the Active is durable leather and microfibre. The shoe is ESD-approved. The 3D-dry® lining transfers moisture from the feet to the second layer of the lining and then through the upper material away from the shoe. The moulded, full-length Sievi Comfort insoles make the shoes extremely comfortable to wear. New anti-slip and sturdy shock-absorbing sole.
